

LinePoint Partners & Co., LLC Risk Disclosures

Effective: October 15, 2024

Different types of investments involve varying degrees of risk. Therefore, it should not be assumed that future performance of any specific investment or investment strategy will be profitable. Past performance is not indicative of future results. Any investment involves risk, including the potential loss of principal.

Asset allocation, rebalancing and diversification may be used in an effort to manage risk and enhance returns. They do not, however, guarantee a profit or guarantee against loss. Performance of the asset allocation strategies depends on the underlying investments.
